ABOUT THIS COLLECTION

Built to last, not just launched

2Pi Solutions is a Moodle development company. We help training, tutoring and education teams get more from Moodle, and we stay on after launch. Several of the platforms in this collection have been in our care for three to five years.

WHAT WE DO

Moodle LMS Plugin Development
Plugins that add the features your platform is missing.

Moodle App Development
Mobile experiences for your learners on the Moodle app.

Custom Moodle Development
Themes, workflows and features built around how you teach.

Moodle Integration
Connections between Moodle and the other systems you rely on.

AT A GLANCE

CLIENT	SECTOR	SERVICES	TOGETHER
iZen ai	Workforce training	Moodle Integration and more	5+ years
Progressive Learning Academy	Online tutoring	Moodle Integration and more	3+ years
TekTone	Technical training	Custom Moodle Development and more	About 5 years
Tamil School LMS	Language education	Custom Moodle Development	Custom build
SLAM Labs	Math education	Custom Moodle Development	AI for math

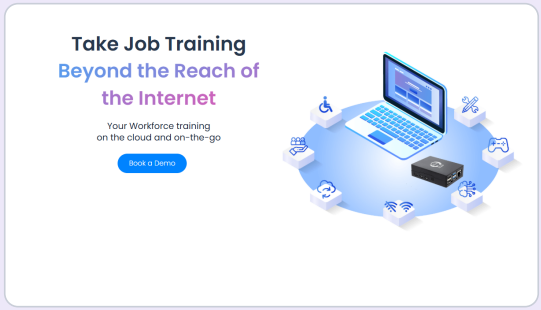

5+ years together

iZ

iZen ai

When the internet drops out, learning shouldn’t.

SECTOR	SERVICES	WEBSITE
Workforce training for government, military and remote learners	Moodle Integration, Custom Moodle Development	izen.ai

THE BRIEF

iZen trains people who are often far from a dependable connection. Its learning devices work offline, but progress still has to reach a cloud LMS, securely, every time they reconnect.

WHAT WE BUILT

- A link between iZen’s offline devices and its Moodle LMS
- Secure two-way sync: content goes out, learner progress comes back
- Behaviour that stays consistent across environments

THE OUTCOME

A dependable, secure sync that iZen has relied on for over five years, with more operational control left in its own hands.

CASE STUDY 02 | ONLINE TUTORING

3+ years together

PLA

Progressive Learning Academy

Keeping a live tutoring platform steady while it grows.

SECTOR	SERVICES	WEBSITE
Online tutoring and training, Vancouver	Moodle Integration, Ongoing support	thinkpla.com

THE BRIEF

PLA puts real teachers in front of students online, across math, English, science, ESL and French. As programs and client organizations multiply, the platform underneath has to stay available and consistent.

WHAT WE BUILT

- Day-to-day LMS support, maintenance and updates
- A platform kept in step with PLA's wider cloud setup

THE OUTCOME

Three years of steady partnership behind a provider that reports a 4.8 out of 5 rating across 992 reviews and surveys.

About 5 years together

TT

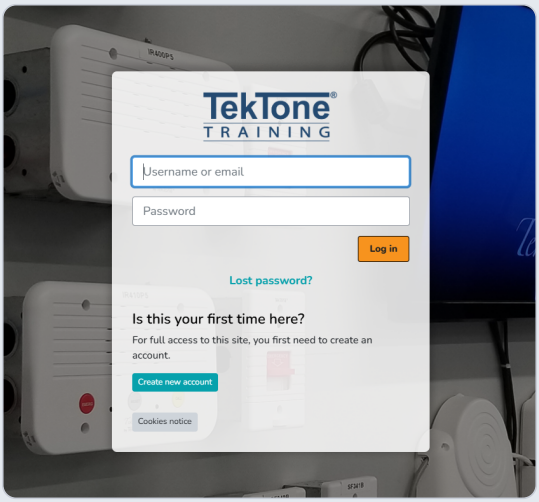

TekTone

A training site that feels like TekTone, kept running for five years.

SECTOR
Sound and signal technology training

SERVICES
Custom Moodle Development, Theme and branding

WEBSITE
training.tektone.com

THE BRIEF

TekTone's training team wants to run classes, not a server. Registrations open and close, materials must be ready before each session, and problems need a fast answer.

WHAT WE BUILT

- Day-to-day running and maintenance of the Moodle site
- A TekTone theme and branding
- Course categories for active, specialist and closed classes
- Self-registration and mobile app access

THE OUTCOME

Five years of dependable service, with availability and response times the TekTone team rates as excellent.

CASE STUDY 04 | LANGUAGE EDUCATION

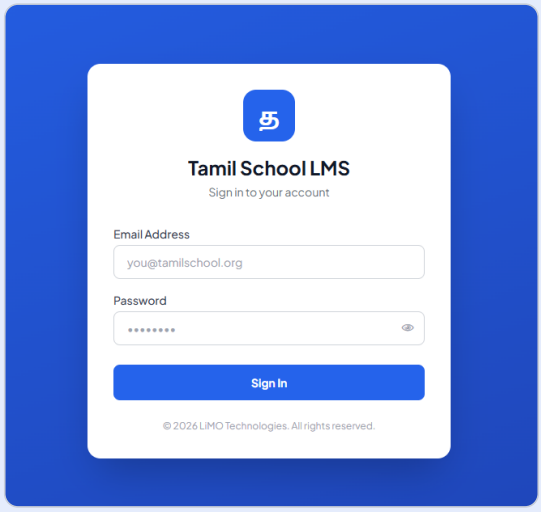

Custom build

TS

Tamil School LMS

A learning portal with a Tamil school’s own identity.

SECTOR	SERVICES	WEBSITE
Language education	Custom Moodle Development	lmslimo.tech

THE BRIEF

A Tamil school needed its own learning portal, branded for its community, not a generic LMS login.

WHAT WE BUILT

- A branded sign-in portal with Tamil-script identity
- Secure email and password access for every user

THE OUTCOME

A purpose-built platform the school’s students, teachers and families can sign in to as their own.

Custom Moodle Development

AI for math

SL

SLAM Labs

Technology behind personalized, AI-supported math learning.

SECTOR	SERVICES	WEBSITE
AI-supported math learning	Custom Moodle Development	slamlabs.org

THE BRIEF

SLAM Labs (Self Learning with AI for Math) builds personalized AI, grounded in teaching research, to ease math anxiety and lift student performance.

WHAT WE BUILT

- Moodle platform work supporting its learning programs

THE OUTCOME

A solid learning platform for a mission-driven team that is growing through donors and partners.
